

CompTIA ITF+ helps professionals to decide if a career in IT is right for them or to develop a broader understanding of IT. CompTIA ITF+ is the only pre-career certification that helps students or career changers determine if they have a competency for information technology and if it is the right career path for them and is the only single certification that covers all areas of IT foundations making it ideal for nontechnical professionals. The CompTIA ITF+ exam will certify the successful candidate has the knowledge and skills required to identify and explain the basics of computing, IT infrastructure, application and software, software development, database fundamentals, and security.

The CompTIA ITF+ FC0-U61 exam is available as of September 4, 2018.

Our unique model follows a streamlined approach to workforce development and skills attainment

Assess: Assess each student to determine existing skill sets

Educate: Deliver goal-specific training utilizing all delivery modalities

Mentor: Expose students to instructors and mentors with front-line IT and cybersecurity experience

Certify: Certify students with the requisite hands-on skills to perform the tasks related to their functional roles

Validate: Validate student abilities through performance analytics and real-world exercises hosted on a cyber range

Exam Objectives: FC0-U61

IT Concepts and Terminology	17%
Infrastructure	22%
Applications and Software	18%
Software Development	12%
Database Fundamentals	11%
Security	20%

Course Outline:

- Chapter 1: How People Use Computers
- Chapter 2: System Hardware
- Chapter 3: Device Ports and Peripherals
- Chapter 4: Data Storage and Sharing
- Chapter 5: Understanding Operating Systems
- Chapter 6: Setting Up and Configuring a PC
- Chapter 7: Setting Up and Configuring a Mobile Device
- Chapter 8: Managing Files
- Chapter 9: Using and Managing Application Software
- Chapter 10: Configuring Network and Internet Connectivity
- Chapter 11: IT Security Threat Mitigation
- Chapter 12: Computer Maintenance and Management
- Chapter 13: IT Troubleshooting
- Chapter 14: Understanding Databases
- Chapter 15: Developing and Implementing Software

Included

- 40 hours of instructor-led training sessions
- CompTIA authorized textbook and class materials
- Practice questions and exam study tips
