

CompTIA Project+ is ideal for IT professionals who need to manage smaller, less complex projects as part of their other job duties but still have foundational project management skills. Project+ is more versatile than other certifications because it covers essential project management concepts beyond the scope of just one methodology or framework.

The successful candidate will have the knowledge and skills required to:

- Manage the project life cycle
- Ensure appropriate communication
- Manage resources and stakeholders
- Maintain project documentation

The CompTIA Project+ PK0-004 exam is available as of March 15, 2017

**Our unique model follows a streamlined approach to workforce development and skills attainment**

**Assess:** Assess each student to determine existing skill sets

**Educate:** Deliver goal-specific training utilizing all delivery modalities

**Mentor:** Expose students to instructors and mentors with front-line IT and cybersecurity experience

**Certify:** Certify students with the requisite hands-on skills to perform the tasks related to their functional roles

**Validate:** Validate student abilities through performance analytics and real-world exercises hosted on a cyber range
